The VRN Patent Authority Page

This page is believed to comprise the Internet's most comprehensive list of patent authorities on the web.

If you know of any patent, trademark or intellectual property authority missing, please don't hesitate to contact me. I try my best to keep the list updated, but things change rapidly in cyberspace. By the way: I

have been thinking of rating the official patent authority sites regarding their user-friendliness and content. Any comments to that end is also welcome.
